

## **Josh Floyd: curriculum vitae**

---

Email: [josh@joshfloyd.com](mailto:josh@joshfloyd.com)

Phone: +61 (0)418 692 188

Josh Floyd works with organisations to develop improved decision making and action in the present through rigorous exploration of longer term futures. Recent work includes: development of the in-house environmental scanning capacity with a national health services NGO; development of an integrated innovation system with an organisation established to foster innovation in a key agricultural products sector; a project with a group of twenty Victorian community sector organisations to address challenges to sector sustainability; establishment of a local economic development process with a large overseas aid organisation; design of a social innovation incubator with a large national community service organisation. From 2004 to 2009 he taught in the Graduate Certificate in Sustainability offered by Swinburne University's National Centre for Sustainability. He has worked closely with the Strategic Foresight Program in Swinburne's Australian Graduate School of Entrepreneurship, in a consulting and research capacity, and has taught in the Master of Management (Strategic Foresight). Josh is an Honorary Fellow of the Asian Foresight Institute Dhurakij Pundit University Bangkok - Thailand, founded by Dr Richard Hames.

Josh has a strong grounding in foresight methodology and process, with a particular emphasis on systems thinking and practice. His professional background was originally in mechanical engineering, working for ten years in metallurgical technology development and commercialisation.
